

Presentation of the Summer School ^[1]

What are the goals of our Summer School?

1 / To offer high level Italian language courses enabling our students to learn or improve their Italian quickly and in total "immersion".

2 / To promote the image of the University of Turin at the international level and to (get to know) promote the city and a region rich in art, culture, history, tradition and unique landscapes.

3 / To offer a non-traditional holiday, combining Italian language instruction and cultural tours.

What do our Summer School courses offer?

Courses are taught by qualified teachers and specialized instructors of Italian as a foreign language.

Teachers and instructors will prepare and provide students with constantly updated learning materials.

Our Summer School offers:

- Customized courses with teachers specialized in Italian (L2) as a foreign language
- Various teaching material
- Updated methodology
- Support of laboratories and multimedia material
- Support of young trainees
- participants can get ECTS credits

A Certificate of attendance will be released by the University at the end of the Summer School, referring to the level of language achieved according to the Common European Framework of Languages.

Target

Courses are aimed at all those who are interested in Italian language and culture: international students, teachers, university professors, PhD students, researchers and scholarship holders, but also professionals and foreign workers, private citizens who live in Turin and all the people from all over the world who are interested in learning Italian (Minimum age: 18 years).
