

The Committee TUE ^[1]

Comitato Torino Università Estate (literally, Turin Summer University Committee) was established in 1998 by the Chancellor's Commission of the International Relations Office of the University of Turin.

Since then, under the direction of Professor Marie-Berthe Vittoz, its aim has been meeting the increasing demand for a high quality academic teaching of Italian as a foreign language.

The Committee provides every year Italian language courses to foreigners which stand out for their high educational, cultural and organizational level. Also, the Committee internationally promotes the image of the University of Turin and the image of Turin itself, a city rich in history, art and tradition.
